We work in 9-year cycles. Personal years start on your birthday and end on your birthday, and they show us what we are currently working on in our businesses.

Knowing which personal year, you are in helps you work with the vibration of the year and its energies instead of against it.

It is always the right time to do the right thing but there are better times and years, easier times and years to do things.

WHAT IS IN A NAME? YOUR EXPRESSION IN YOUR BUSINESS & YOUR SOUL URGE IN YOUR BUSINESS

Words are spells that is why we call them spelling - words have tremendous powers.

So, when you change your name, you literally change your life!
We also can have a lot of an energy in our name or missing an energy in our name. If you have something in your name – again you have it for a reason.

How are you seen in business? Let me show you … So that you can …

- Understand that you are a different person in public than in private in your business – let me show you why!

YOUR BUSINESS LIFE PATH NUMBER AND EXPRESSION NUMBER

A business is alive. It has its own name, character, style, brand, colour, flavour and much else besides. Because it is alive it attracts and repels according to its nature. and its nature can be revealed through its numerology.

By calculating your businesses life path number and expression number we can identify what your business is here to do, be and have, revealing its skills, talents and abilities and how it interacts with others.

In turn we can identify what we need to do to ensure your business energies are being optimised.

You are wanting to understand what the name of your business means – and how it is seen by your clients and community

- You are wanting to discover the Life Path number of your business and understand what it requires from you at the helm
- You are curious about the gifts that your business has and the impact it is here to bring to the world through the job it is here to do and would like to know more
